

CERIC RETREAT April 27-28, 2011

Exploring the association inflammatory disorders – cardiovascular disease

Venue: Utsikten Meetings, Nynäshamn

PROGRAM

Wednesday April 27

10.00 Buses leave CMM

11.00 Arrival and check-in Utsikten Meetings, Nynäshamn

11.30 Lunch and poster set-up

13.00 Introduction: CERIC strategy and set-up
Göran Hansson

Moderator: Lars Klareskog

13.30 Kinetics of the relative risk for myocardial infarction in RA
Marie Holmqvist

14.00 Risk factors for CVD in systemic autoimmunity
Elisabet Svenungsson

14.30 What is the evidence for a common genetic basis in chronic
inflammatory disorders and cardiovascular disease?
Anders Hamsten

15.00 Coffee and poster session

Moderator: Mona Ståhle

17.00 Short talk: An experimental model to explore common mechanisms in
inflammatory disorders and atherosclerosis
Alexandra Bäcklund

17.20 Environmental associations and immunologic mechanisms in MS – and reflection on the low
increase in risk for cardiovascular disease
Tomas Olsson

18.00 Refreshments and a little fun

19.00 Dinner

Thursday April 28

Moderator: Birgitta Agerberth

8.30 Role of VEGF-B in insulin resistance and type 2 diabetes
Ulf Eriksson, MBB

9.00 The role of lipids in driving and regulating inflammation
Marcus Hoffman

9.30 Coffee

Moderator: Cecilia Söderberg-Naucler

10.15 Short talk: Positional cloning of an amino acid transporter regulating chronic inflammation
Bruno Raposo

10.30 Leukotrienes in abdominal aortic aneurysm formation
Jesper Haeggström

11.00 Conclusions and round-up
Göran Hansson

11.15 Lunch

12.00 Buses leave for CMM

13.00 Estimated arrival CMM
