

VIVIANNE MALMSTRÖM PUBLICATIONS 2009**Peer reviewed articles**

1. Snir O*, Widhe M*, von Spee C, Lindberg J, Padyukov L, Lundberg K, Engström Å, Venables P, Lundeberg J, Holmdahl R, Klareskog L and Malmström V. Multiple antibody reactivities to citrullinated antigens in sera from rheumatoid arthritis patients – associations with HLA-DRB1 alleles. **Ann Rheum Dis** 2009 68:736-743. (IF:8.11)
2. Krystufkova O, Vallerskog T*, Helmers SB*, Mann H, Putova I, Belacek J, Malmström V, Trollmo C, Vencovsky J and Lundberg I. Increased serum levels of B cell activating factor (BAFF) levels in subsets of patients with idiopathic inflammatory myopathies. **Ann Rheum Dis** 2009 68:836-843. (IF:8.11)
3. Fath AE, Dastmalchi M*, Rahbar A*, Salomonsson S, Pandya J, Lindroos E, Nennesmo I, Malmberg K-J, Naucier C, Trollmo C, Lundberg I and Malmström V. T cell infiltrates in the muscles of patients with dermatomyositis and polymyositis are dominated by CD28null T cells. **J Immunol**, 2009 183:4792-9. (IF:5.79)
4. Raghavan S, Cao D, Widhe M, Roth K, Herrath J, Engström M, Roncador G, Banham AH, Trollmo C, Catrina AI, and Malmström V. FOXP3 expression in blood, synovial fluid and synovial tissue during inflammatory arthritis and intra-articular corticosteroid treatment. **Ann Rheum Dis** 2009 68:1908-15. (IF:8.11)
5. Mahdi H, Fischer B, Källberg H, Ding B, Plant D, Malmström V, Rönnelid J, Charles P, Symmons D, Venables P, Alfredsson L, Klareskog L, Lundberg K. Specific interaction between genotype, smoking and autoimmunity to citrullinated alpha-enolase in the aetiology of rheumatoid arthritis. **Nature Genetics** 2009 41:1319-24. (IF:35.53)
