

CERIC seminars Spring 2010

The hosting CERIC Principle Investigators for each seminar date is provided below. The seminars at CMM are in either the Seminar Room (L8:00) or the Rolf Luft Auditorium (L1:00) and the seminars at MBB are located in the Large Seminar Room on the 3rd floor (Stora Seminarierummet, A2:319). All seminars are from 15:00-16:00 with refreshments served both before and after the seminar.

January 15th Rolf Luft Auditorium (L1:00)

Olga Ovchinnikova, Cardiovascular Research Lab, CMM, Karolinska Institutet

Title: *Cytokine regulation of the extracellular matrix*

Host: Göran Hansson

January 22nd Rolf Luft Auditorium (L1:00)

Andor Pivarsci, Department of Medicine, Karolinska Institutet

Title: *MicroRNAs in atopic dermatitis*

Host: Mona Ståhle

January 29th MBB Stora Seminarierummet (A2:319)

Rikard Holmdahl, Division of Medical Inflammatory Research, Karolinska Institutet

Title: *Autoimmunity to cartilage collagen*

Host: Rikard Holmdahl

February 5th Rolf Luft Auditorium (L1:00)

Monika Grudzinska, Institute for Medicine, Karolinska Institutet

Title: *The role of vascular progenitor cells in transplant vascular sclerosis*

Host: Cecilia Söderberg-Naucler

February 12th Rolf Luft Auditorium (L1:00)

Ingrid Lundberg, Division of Rheumatology, Institute for Medicine, Karolinska Institutet

Title: *Myositis, origins and outcome*

Host: Marie Wahren-Herlenius

February 19th MBB Stora Seminarierummet (A2:319)

Leonid Padyukov, Enheten för reumatologi, Institutionen för Medicin, Karolinska Institutet

Title: *At the crossroads of genetics of human complex diseases: what can we learn from rheumatoid arthritis?*

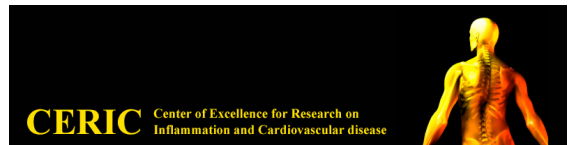

Host: Lars Klareskog

February 26th Rolf Luft Auditorium (L1:00)

Agneta Richter-Dahlfors, Institutionen för Neurovetenskap, Karolinska Institutet; Director Swedish Medical Nanoscience Center

Title: *Real-time analysis reveals immediate onset of inflammation and other tissue responses during renal infection*

Host: Jesper Haeggström

March 5th CMM Seminar Room (L8:00)

Edward Dennis, Director of LIPID MAPS Initiative, Departments of Chemistry and Biochemistry and Pharmacology, University of California San Diego

Title: *Systems biology approaches to lipidomics of phospholipase initiated eicosanoid metabolism in inflammation and atherogenesis*

Host: Sven Pawelzik

March 12th CMM Seminar Room (L8:00)

Michal Schwartz, The Department of Neurobiology, The Weizmann Institute of Science, Rehovot, Israel

Title: *Principles of the Immunology of the brain and mind in health and disorders*

Host: Tomas Olsson

March 19th CMM Seminar Room (L8:00)

Lillemor Mattsson Hultén, Wallenberg Laboratory for Cardiovascular Research, University of Gothenburg

Title: *The role of hypoxia in atherosclerosis*

Host: Anders Hamsten

March 26th CMM Seminar Room (L8:00)

Peter Bergman, Clinical Microbiology, Karolinska University Hospital, Huddinge

Title: *Antimicrobial peptides and mucosal immunity - novel treatment options in sight?*

Host: Birgitta Agerbeth

April 2nd (Easter – No seminar)

April 9th CMM Seminar Room (L8:00)

Frederik Vilhardt, Institute of Cellular and Molecular Medicine, Copenhagen University

Title: *The role of the NADPH oxidase complex*

Host: Rikard Holmdahl

April 16th CMM Seminar Room (L8:00)

Lars Holmgren, Cancercentrum Karolinska (CCK), Karolinska Universitetssjukhuset

Title: *The role of cell polarity in blood vessel formation*

Host: Cecilia Söderberg-Naucler

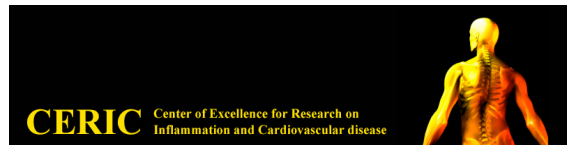

April 23rd CMM Seminar Room (L8:00)

Anne Bouloumie, Institut National de la Santé et de la Recherche Médicale (INSERM)

Title: *Adipose tissue macrophages and lymphocytes: characterization and role in obesity and insulin resistance*

Host: Joanna Chmielewska

April 30th (Valborgsmässoafton – No seminar)

May 7th CMM Seminar Room (L8:00)

Per Andrén, Department of Pharmaceutical Biosciences, Medical Mass Spectrometry, Uppsala University

Title: *Fine mapping the spatial distribution of proteins, peptides, lipids and drugs in tissue sections using imaging mass spectrometry*

Host: Craig Wheelock

May 14th (Klämdag – No seminar)

May 21st CMM Seminar Room (L8:00)

Elias Arnér, Division of Biochemistry, Department of Medical Biochemistry and Biophysics, Karolinska Institutet

Title: *Using the chemical reactivity of selenocysteine to enable PET imaging with protein ligands*

Host: Birgitta Agerbeth

May 28th CMM Seminar Room (L8:00)

Susanna Brauner, Department of Medicine, Karolinska Institutet

Title: *B cells in Sjögrens Syndrome*

Host: Marie Wahren-Herlenius

June 4th CMM Seminar Room (L8:00)

Michael Zasloff, Professor of Surgery and Pediatrics, Department of Surgery, Georgetown University

Title: *The regulation of expression of epithelial antimicrobial peptides in the human small intestine: a new role for the dendritic cell of the lamina propria*

Host: Mona Stähle
