

CERIC seminars Fall 2011

The seminars will be located in either the CMM Lecture Hall (L8:00) or the MBB Large Seminar Room (A3:311). All seminars are Fridays from 15:00-16:00 with refreshments served both before and after the seminar.

August 26<sup>th</sup> Rolf Luft Auditorium

Speaker: Caetano Reis e Sousa, Immunobiology Laboratory, Cancer Research UK, London Research Institute

Title: *Innate regulation of adaptive immunity by dendritic cells*

Host: Stephen Malin

September 2<sup>nd</sup> MBB Large Seminar Room (A3:311)

Speaker: Lennart Hammarström, Division of Clinical Immunology, Karolinska Institutet

Title: Genetics of primary immunodeficiency diseases

Host: Marie Wahren-Herlenius

September 9<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Lena Claesson Welsh

Title: *Macrophage polarity and regulation of tumor vascularization, growth and metastatic dissemination*

Host: Marie Wahren-Herlenius

September 16<sup>th</sup> The Leksell Auditorium, Eugeniahemmet, T3:02

Speaker: Tom Huizinga, Department of Rheumatology, Leiden University Medical Center

Title: *What can be learned from Rheumatoid Arthritis as a prototype auto-immune disease?*

Host: Lars Klareskog

September 23<sup>rd</sup> September 9<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Thomas Renné, Clinical Chemistry, Dept of Molecular Medicine and Surgery, KI

Title: *The procoagulant and proinflammatory plasma contact system*

Host: Göran Hansson

October 14<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Steve Watson, University of Birmingham, UK

Title: *Role of platelets in lymphatic development*

Host: Cecilia Söderberg-Naucleer/Lynn Butler

October 21<sup>st</sup> MBB Large Seminar Room (A3:3)

Speaker: Polly Matzinger, Laboratory of Cellular and Molecular Immunology, National Institute of Allergy and Infectious Disease

Title: *Danger Model: Details autoimmunity, tumor biology and allergy*

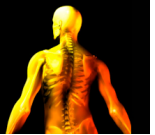

Host: Göran Hansson/Hanane M'hamdi

October 28<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Gerard Nash, University of Birmingham, UK

Title: *Regulation of leukocyte recruitment by the local haemodynamic and stromal environments*

Host: Cecilia Söderberg-Naucleer/Lynn Butler

November 4<sup>th</sup> No seminar

November 11<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Antonio Rothfuchs, Department of Microbiology, Tumor and Cell Biology, Karolinska Institutet

Title: *Visualization of antigen by CD4+ cells during mycobacterial infection*

Host: Liv Eidsmo

November 18<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Uwe-Karsten Hanisch University of Göttingen, Germany

Title: *Microglia - How versatile are their responses, how heterogeneous are they to start with?*

Host: Robert Harris

November 25<sup>th</sup> CMM Lecture Hall (L8:00)

cancelled

December 2<sup>nd</sup> CMM Lecture Hall (L8:00)

Speaker: Linda Fogelstrand, Sahlgrenska Center for Cardiovascular and Metabolic Research

Title: *Humoral immunity against oxidized low-density lipoprotein - metabolic regulation and clinical implications*

Host: Stephen Malin

December 9<sup>th</sup> CMM Lecture Hall (L8:00)

Speaker: Jan Borén, Sahlgrenska Center for Cardiovascular and Metabolic Research

Title: *Mechanism for and consequences of hypoxia-induced cardiac lipid accumulation*

Host: Ulf Hedin

December 15<sup>th</sup> CMM Lecture Hall (L8:00) Note – seminar is on a Thursday

Speaker: Gerard Pasterkamp, University of Utrecht

Title: *Innovation in biomarker discovery in atherosclerotic disease*

Host: Anders Gabrielsen
